

ADOPT A STORM DRAIN

There are over 300 storm drain inlets in Clear Lake and Ventura like these which drain directly into the lake. That's why it is so important for citizens concerned with improving Clear Lake to take action by "adopting" a storm drain and being responsible for removing debris that can enter the drains. If you would like to be part of a team of people dedicated to this task, please fill out the form below and then contact the CLEAR Project at 357-2532. The goal is to have all of these drains become adopted.

Debris such as grass clippings, leaves, pet waste, pop cans, and other waste often end up near the storm drains. Removing these materials and disposing of them properly ensures that they do not enter the lake where they would cause harm.

ADOPT A STORM DRAIN SIGN-UP FORM

NAME: _____

ADDRESS: _____

LOCATION OF STORM DRAIN(S) I WOULD LIKE TO ADOPT*:

* Most storm drains which empty into the lake have the message "Caution Drains To Lake" painted on them. Complete the above form and then contact the CLEAR Project P.O. Box 863 Clear Lake, IA 50428 or call (641) 357-2532.
